

ROBERT J. HUBA

Leland, NC | 910-899-7551 | RJHuba@gmail.com | linkedin.com/in/robert-huba-cybersecurity | roberthuba.com

PROFESSIONAL SUMMARY

Army combat veteran and cybersecurity professional with a Bachelor of Science in Cybersecurity from the University of North Carolina Wilmington. Hands-on experience in security operations, penetration testing, digital forensics, network defense, vulnerability assessment, and ICS/OT security through academic projects, cybersecurity competitions, and lab environments.

Recognized through participation in a National Security Agency (NSA) and Department of Homeland Security (DHS) National Center of Academic Excellence in Cyber Defense program. Active National Cyber League competitor and NSA Codebreaker Challenge participant with experience analyzing security incidents, conducting network investigations, and solving real-world cybersecurity challenges.

Proven leader with experience protecting critical infrastructure, sensitive assets, and personnel in high-risk environments. Former Secret security clearance holder with eligibility for reinstatement.

EDUCATION & CREDENTIALS

B.S. in Cybersecurity — University of North Carolina Wilmington (May 2026)

Certificate of Achievement — NSA/DHS National Center of Academic Excellence in Cyber Defense (CAE-CD)

A.A.S. in Mechatronics Engineering Technology — Cape Fear Community College (Jan 2021)

Focus: Industrial Control Systems (ICS), PLCs, I/O devices, and automated systems

Certifications in Progress:

CompTIA Security+ | Certified Ethical Hacker (CEH)

TECHNICAL SKILLS

Security Tools: Wireshark, Splunk, Nessus, Nmap, Burp Suite, Metasploit, Steghide, Binwalk, John the Ripper, Hashcat, Kali Linux

Security Domains: SOC Operations, Incident Response, Vulnerability Management, Digital Forensics, Penetration Testing, ICS/OT Security, Network Security, Risk Management

Operating Systems: Kali Linux, Ubuntu, Fedora, Windows, Windows Server

Programming: Python (automation & scripting), Bash

Infrastructure: Active Directory, Azure, AWS, Virtualization, LAN/WAN, ICS/SCADA, PLCs

Compliance & Governance: NIST CSF, FTC Safeguards Rule, WISP Development, Third-Party Risk Management

Clearance: Secret (held; reinstatement in progress)

PROFESSIONAL EXPERIENCE

Freedom Sailing | *Chief Operations Officer*

2021 – Present

- Lead all operations for a nonprofit that takes veterans, soldiers, and first responders sailing to build community and support PTSD recovery — a cause central to both my personal and professional mission.
- Manage risk, policy documentation, compliance activities, and organizational logistics for a small nonprofit serving those who served.

IVP Forest Products | *Senior Machine Operator → ICS Technician*

2017 – 2020

- Began as machine operator on the debarking line; advanced to configuring and troubleshooting PLCs, I/O devices, and networked industrial systems.
- Resolved computer and automation issues across the production floor, maintaining operational uptime in an OT/ICS environment.
- Pursued and completed A.A.S. in Mechatronics during this period, directly applying coursework to ICS challenges.

U.S. Army | *Infantry Operations Manager & Battle NCO*

2004 – 2012

- Served as Battle NCO in the Base Defense Operations Center (BDOC) at Camp Arifjan, Kuwait — a 24/7 SOC-equivalent safeguarding 9,000+ personnel across one of the largest U.S. installations in the Middle East.
- Operated and monitored surveillance systems, biometric access controls, alarm systems, and radio communications using a Secret clearance — directly analogous to modern SOC analyst work.

- Coordinated emergency dispatch, Force Protection Condition (FPCON) changes, and incident response for criminal, medical, and security threats.
- Maintained \$1.2M+ in weapons systems and sensitive equipment at 98% operational readiness; zero losses during entire tenure.
- Led personnel through two combat deployments to Iraq; awarded Army Commendation Medal (x2) and Army Achievement Medal (x2).

CYBERSECURITY PROJECTS & COMPETITIONS

NSA Codebreaker Challenge (2023–2025)

- Competed in NSA's flagship challenge; solved real-world scenarios in reverse engineering, network forensics, and exploit development.

National Cyber League (NCL) — 2024–2025

- Competed in network traffic analysis, OSINT, password auditing, malware analysis, and log analysis events.

Steganography & Digital Forensics Research

- Led investigation into malware concealed within digital images; built an analysis framework using Steghide, Binwalk, and custom Python tooling.

Kali Linux Home Lab & Python Port Scanner

- Built and maintain a professional pentest lab (Kali, Windows Server, Active Directory); developed a multi-threaded Python port scanner for network reconnaissance.

Enterprise Secure Network Design (UNCW Capstone)

- Designed full enterprise network architecture with firewall rules, IDS/IPS placement, network segmentation, and endpoint security controls.

AWARDS & DISTINCTIONS

Army Commendation Medal (x2) | Army Achievement Medal (x2) | Combat Infantry Badge | Iraqi Campaign Medal with 2 Campaign Stars
